

# **Beloved Missionary School**

## **Foundation Partners**

When we started building the Pearl, the Lord asked for 20 foundation partners - 20 people who, by their financial commitment, would hold the vision in their prayers until it was built. God has honoured their commitment and faithfulness, and now the base is beginning to function.

Now we are preparing to build the “Beloved Missionary School”, for 5-11 year olds. We will be linked with the Ghana Education Authority, but offering a Christian based environment – essential in these days where other faiths are building schools, and Christian parents are being faced with a very hard choice.

We have been astonished to find that there is some beautiful land, just 400 metres from our base, owned by the man who farmed our land before we bought it. He is a very generous person, and is thrilled to know that we want his land for a school, and is being very generous with the price.

As I have prayed over this issue, the Lord spoke to me again. We must follow the same route as we did with the base. We need foundation Partners - people who by their commitment will hold the school in their hearts until it is built. The Lord is looking for 10 Beloved foundation partners, each supporting the vision with 500.00. This will secure the land, but will secure so much more – ten people who will hold the vision in their hearts, until the school is built.

Cheques to the TAKK TRUST at the Mission address. Gift aid if possible. I leave all this to your prayers. I will be paying for the land at the end of September.
